re: Post

Dear Barbara:

This is an official npte of resignation from the Archives Post and the Sea Org.

Please pass it on to the proper person.

I would have liked to spend some time with someone to turn the post over, but that simply wasn't possible. Therefore someone will have to pick up the files, etc. basically from scratch. It's actually better that way as the person will become thoroughky familiar with them rather quickly.

I would wish that Vaughn would be kept on as the biog research person to work with Omar. However, I'll probably now be an "anti-opinion leader" and any "advice" I have would be shunned like the plague.

I would wish that my Family not be contacted. I frankly don't know where I'll go right now, but will be in tpuch with them in the near future. It would be a bit distressing for them, and they have not all been pro-Scientology over the years.

I would also ask that I not be harrassed. I know the organization is very capable of that sort of thing, but I don't wish them any ill, and I would hope they will not intend any toward me.

Someone will want to know why I (and Joyce) left. It really isn't important, however it is simply because it was time. I think everyone comes to this point in their lives.

There are disagreements, of course, and these would also preclude any further involvement at this time. But I don't have to go into those here.

I would be most grateful if you could ensure that the line to Omar is picked up again (Vaughn I hope, as he has the insight the job requires). The biography is so important to righting the scene, and Omar is one of the best friends the organization and LRH

Any comm can be sent to this address:
c/o
115 Princess Avenue East
Chilliwack, B.C., Canada V2P 2A6

I'll turn the car over to Vaughn for now as he'll need it.

The copier, see my other note.

Files are all intact. They really require a full-time files person as they are not in a decent order at all. I spent the last several months trying to get Omar copied all the materials he would need, and more stuff kept pouring in. So the files are not in any sensible order.

Omar has a great deal of materials, but there will be holes which have to be filled. And there are a great number of important letters/docs/files, etc. which haven't been copied. His assigned terminal can pick this up.

I'll be willing to be consulted on anything. I'll just not be a part of the Church. So, actually my relationship dpesn't change much. Thatis, I'mnot any enemy as the organization sees such.

I'll be in touch after Christmas, and if there are any questions, or any way I can help at that time, just let me know.

This is a rather hasty note, as I'm rather hasty right now.

Maybe will send you something later, when I allow myself more time.

And maybe will see you again soon.

Much love,

Gerry Gerry

PS: Here are Christmas gifts for you and Dick. Have a great holiday time.
